WHEREAS, data mining and cryptocurrency-mining facilities and operations require extraordinary levels of electrical power, often equivalent to the consumption of thousands of homes, placing strain on local utilities and potentially increasing costs to residential ratepayers; and

WHEREAS, such facilities generate significant continuous noise from industrial-grade cooling systems, fans, and compressors, which can negatively impact property values, public health, and the peaceful enjoyment of nearby communities; and

WHEREAS, data-mining facilities provide limited job creation, minimal economic impact compared to the infrastructure burden they impose, and do not align with the long-term economic development goals of Sullivan County; and

WHEREAS, several Tennessee counties and multiple jurisdictions nationwide have restricted or prohibited data-mining operations due to concerns over electrical grid strain, noise nuisances, fire hazards, and the lack of community benefit; and

WHEREAS, the Sullivan County Board of Commissioners has a responsibility to protect the health, safety, welfare, and property values of its citizens and to ensure responsible land-use planning that preserves the character of local rural and residential communities; and
